ABOUT

The Strategic Plan was developed by St. John School leadership, the school commission and multiple community members during the 2017 and 2018 calendar years.

The development effort incorporated surveys, market research and a current state assessment based upon interviews with all stakeholders, including parents, alumni families, parish members, peer schools and area high schools.

The plan identifies the overarching goals for our school for the next five years along with several related supporting objectives in specific key areas.

This plan builds off the work done as part of the prior Five Year Strategic Plan completed in the 2016-2017 school year and the self-study published in 2017.
